The Perfect Peel — What Sets It Apart

A medical-grade resurfacing peel formulated with glutathione — a powerful master antioxidant rarely found in over-the-counter peels — for transformative skin renewal in a single treatment.

- ◆ **Glutathione Master Antioxidant.** The only peel of its kind featuring glutathione — known to brighten, detoxify, and slow visible signs of aging from within.
- ◆ **Targeted Concerns.** Treats melasma, hyperpigmentation, fine lines, acne and acne scarring, sun damage, and uneven texture — all in one protocol.
- ◆ **Minimal Downtime.** Despite being medical-depth, peeling typically resolves within 5-7 days — a far more manageable recovery than traditional deep peels.
- ◆ **Visible Results.** Most clients see brighter, clearer, smoother skin within two weeks — with continued improvement over the following month.

A note from Holly.

All consultations at Lamella are complimentary and never come with pressure to book. We believe the best treatment is the one that matches what your skin actually needs — and sometimes that means waiting, layering treatments over time, or recommending something entirely different than what you came in expecting.

Prices are subject to change. Package pricing must be paid in full at first session. Some treatments require a consultation before booking — we will let you know at the time of scheduling.
